Subject: Centerville-Washington Park District to conduct community-wide survey to gather feedback

CENTERVILLE, OH: Centerville-Washington Park District will be conducting a phone survey of randomly selected registered voters during the week of October 3, 2016. The surveys will be used to gauge residents' feedback on the park district's programs and amenities, helping them to better meet the needs of residents in the community.

“We are committed to providing the best park and recreation experience for our residents,” said Director Arnie Biondo. “It is our goal to find areas where we can invest to continue providing programs and amenities that encourage residents to explore their community’s big backyard.”

The survey, which is being conducted by a third party, will consist of approximately 30 questions focusing on areas such as programming, communication and more. The results from the phone survey and community focus groups, being conducted during October and November, will help to develop the future of the Centerville-Washington Park District.

“If called, I encourage community members to participate in the phone survey,” Biondo said. “Your input is important and all feedback will be taken into consideration as we plan for the future of the park district.”

The Centerville-Washington Park District operates eight community parks, nine nature parks, and 33 neighborhood parks encompassing more than 1,000 acres in Centerville and Washington Township.
