

Dear Parent:

In order to provide the best possible care for your child, while he/she is attending our programs, the Centerville-Washington Park District has adopted a policy for the administration of Epinephrine for children with severe allergies. All information must be completed and returned to the Park District at least one week prior to your child attending camp.

PARENT/GUARDIAN RESPONSIBILITIES

1. PARTS I, III, IV of this document must be completed and signed by the parents/guardian of the child and returned to the Centerville-Washington Park District prior to participating in any Park District programs. All information must be up to date at all times.
2. PART II must be completed and signed by the child's physician and returned to the Centerville-Washington Park District prior to participating in any Park District programs.
3. Parents/Guardians are required to provide the Centerville-Washington Park District, at parents'/guardians' expense, all equipment and medication needed to comply with the instructions set forth in the Medical Authorization and Instruction Form (including, but not limited to, a device such as an Epinephrine auto injector or Epinephrine auto injector, Jr.). Parents/Guardians are solely responsible for ensuring that all medication is properly labeled by a pharmacist and has not expired.

If you have any questions or concerns, please feel free to contact me at 937-433-5155.

Sincerely,

Kristen Marks

Programs Manager

Centerville, Ohio 45459 

CENTERVILLE-WASHINGTON PARK DISTRICT RESPONSIBILITIES

1. The Centerville-Washington Park District will maintain records and forms provided by parent/guardian.
2. The Park District will train employees to administer Epinephrine injections.
3. If appropriate, because the child is unable to administer the Epinephrine auto injector or Epinephrine auto injector for himself/herself, a trained Park District staff member will administer the dose of medicine required.
4. The Park District cannot ensure that children will not come in contact with any natural allergens. This includes, but is not limited to: nuts, berries, molds and mildew as these items occur naturally in all of the parks.

RELEASE AND INDEMNIFICATION AGREEMENT

Emergency Care For Prevention of Anaphylaxis

PART I: To be completed by the Parents/Guardian

I/We hereby authorize the Centerville Washington Park District (CWPD) personnel to assist my/our child/ward in administering Epinephrine injections as directed by my/our child's/ward's physician. In the event my/our child/ward is incapable of self-administering said injection, CWPD personnel may administer said injection as directed by my/our child's/ward's physician.

I/We hereby acknowledge that CWPD personnel are not trained medical professionals and may misdiagnose signs of anaphylaxis and when Epinephrine is to be administered and further, cannot guarantee nor be responsible for a satisfactory outcome of the administering of the medication.

In consideration of permitting my/our child/ward to participate in recreation programs sponsored by the CWPD, I/we, as the stated child's parent(s) or guardian(s), hereby agree to release and discharge, as well as indemnify and hold harmless Centerville-Washington Park District, its Commissioners, Agents, Employees, Assignees, and Volunteers from any claims, demands, actions of any type and nature, and expenses, including reasonable attorney's fees, resulting from the administration of Epinephrine or other emergency care, provided said medication and care is given in accordance with the Medical Authorization and Instruction Information completed by the child's/ward's physician or from their failure to administer emergency care or Epinephrine when required. I/we have read the information and procedures outline included with this form and I/we agree to assume the responsibilities imposed. I/we further acknowledge that an emergency squad will be called when Epinephrine is injected, whether or not the child/ward manifests any symptoms of anaphylaxis, and I/we agree to be solely responsible for any expenses incurred if my/our child/ward is transported to any facility for further care or evaluation.

Child's/Ward's Name: _____

Date of Birth: _____ Age: _____ Gender: M _____ F _____

MEDICAL AUTHORIZATION AND INSTRUCTION INFORMATION

PART II: To be completed by Physician

Patient Name: _____ Date of Birth: _____

Physician – The Centerville-Washington Park District has been advised that the child named above is under your care and treatment because of his/her severe allergies to certain foods, which could result in anaphylaxis. In consideration of permitting the child to participate in educational and recreational programs within the Centerville-Washington Park District properties, we require that the parent/guardian obtain the following information from you:

1. What is the nature of the child's allergy? _____

2. What symptoms will the child exhibit when exposed to the allergen(s)? _____

3. When should Epinephrine be given? _____

Check as appropriate: (medication expiration date must be clearly indicated)

Epinephrine auto injector, Jr. (person weighing less than 66 lbs.)

_____ Give pre-measured dose of 0.15mg of Epinephrine 1:2000 aqueous solution. (0.3cc)

_____ Repeat dose every _____ if rescue squad has not arrived. (2 doses will be required on site at all times)

Epinephrine auto injector (person weighing 67 lbs. and over)

_____ Give pre-measured dose of 0.3 mg of Epinephrine 1:1000 aqueous solution (0.3cc)

_____ Repeat dose every _____ if rescue squad has not arrived. (2 doses will be required on site at all times)

Auvi-Q® 0.3 mg (person weighing greater than or equal to 66 lbs)

_____ Give pre-measured dose of 0.3mg of Epinephrine 1:2000 aqueous solution. (0.3cc)

_____ Repeat dose every _____ if rescue squad has not arrived. (2 doses will be required on site at all times)

Auvi-Q® 0.15 mg (person weighing 33-66 lbs.)

_____ Give pre-measured dose of 0.15mg of Epinephrine 1:2000 aqueous solution. (0.3cc)

_____ Repeat dose every _____ if rescue squad has not arrived. (2 doses will be required on site at all times)

4. What other emergency medical care should be provided if the child is exposed to the allergen?

Please be advised that the staff at the Centerville-Washington Park District are not trained medical professionals and may not recognize or be in a position to observe symptoms of any allergic reaction the child may develop. Staff will be relying upon the child to recognize the development of any allergic reaction and to self-administer any required medication. In your opinion, does the child know the following?

Nature of his/her condition	YES _____	NO _____
Symptoms of an allergic reaction	YES _____	NO _____
How to self-administer required medication	YES _____	NO _____
When to self-administer required medication	YES _____	NO _____

RECOMMENDED ACTIVITY GUIDE FOR CHILDREN WITH SPECIAL NEEDS

Children with Special Needs and/Medical Disabilities

PART III. To be completed by the Parent/Guardian

In order to provide the best possible care for your child/ward, we ask that you please make our staff fully aware of special needs or medical problems that he/she may have. Should he/she be unable to cope with the rigorous activity schedule our program involves, it may be necessary for you to provide an aide to be with him/her. This possibility must be discussed with the Program Manager prior to the start of the program.

EPINEPHRINE INFORMATION AND PROCEDURES AGREEMENT

PART IV. To be completed by the Parent/Guardian

1. Epinephrine will not be administered without signed parent/guardian and physician authorizations.
2. Personnel may not accept medications unless the Authorization Form is completed and signed.
3. The parent/guardian is responsible for submitting a new form each time there is a change in dosage or a change in the conditions under which Epinephrine is to be injected.
4. Centerville-Washington Park District personnel will administer or assist in administering pre-measured doses of Epinephrine.
5. All medication provided must be properly labeled by a pharmacist with the expiration date clearly indicated.
6. If repeat doses of Epinephrine auto injector injections are in the physician's order for care, the parent/guardian must supply two (2) Epinephrine auto injector kits.
7. Medications must be hand delivered by the parent/guardian on a daily basis to each program and any unused portions must be picked up by the parent/guardian immediately following the program. If not picked up, medication may be destroyed by CWPD without liability to the parent/guardian.
8. All medication is to be kept by the program participant or the CWPD personnel assigned to him/her and will not be kept between programs, even if they occur on a daily basis.
9. The Centerville-Washington Park District does not assume responsibility for unauthorized medication taken independently by the child/ward.
10. Under no circumstances may any staff facilitate the taking of any medications outside the procedures outlined in this document.
